- **Small Business Development Centers**

(Excerpt taken directly from <https://www.sba.gov/tools/local-assistance/sbdc>)
Small Business Development Centers (SBDCs) provide assistance to small businesses and aspiring entrepreneurs throughout the United States and its territories. SBDCs help entrepreneurs realize the dream of business ownership and help existing businesses remain competitive in a complex, ever-changing global marketplace. SBDCs are hosted by leading universities and state economic development agencies, and funded in part through a partnership with SBA.

SBDC advisors provide aspiring and current small business owners a variety of free business consulting and low-cost training services including: business plan development, manufacturing assistance, financial packaging and lending assistance, exporting and importing support, disaster recovery assistance, procurement and contracting aid, market research help, 8(a) program support, and healthcare guidance.

With dozens of host networks branching out with hundreds of service delivery points throughout the U.S., the District of Columbia, Guam, Puerto Rico, American Samoa and the U.S. Virgin Islands, SBDC assistance is available virtually anywhere
